Regulated information – Press release on the repurchase of treasury shares

7 August 2026, 16:00 CEST

Ghent, Belgium

PRESS RELEASE

EnergyVision acquires treasury shares for employee participation plans and strategic purposes

GHENT – EnergyVision NV acquired a total of 384,615 treasury shares on 31 July 2026 through an over-the-counter (OTC) transaction at a price of EUR 13.00 per share.

In accordance with Article 8:4 of the Royal Decree of 29 April 2019 implementing the Belgian Code of Companies and Associations, EnergyVision NV announces that, pursuant to the authorisation granted by the Extraordinary General Meeting of Shareholders of 16 June 2025, it repurchased a total of 384,615 treasury shares on 31 July 2026.

Overview of treasury share repurchases

Date	Number of shares	Time	Price per share (EUR)	Trading method
31 July 2026	53,537	14:59:27	13.00	Over-the-counter (OTC)
31 July 2026	54,445	14:59:01	13.00	Over-the-counter (OTC)
31 July 2026	77,000	14:58:35	13.00	Over-the-counter (OTC)
31 July 2026	199,633	14:58:14	13.00	Over-the-counter (OTC)

The repurchased shares are intended for share option plans offered to the company's employees and/or for future strategic transactions, including potential acquisitions.

The repurchased shares were not part of the company's free float but were acquired primarily from former employees subject to contractual lock-up arrangements. Consequently, the transaction has no impact on the free float or the liquidity of the company's shares and forms part of the company's active capital management strategy.

Following these transactions, as of 7 August 2026, EnergyVision holds a total of 867,609 treasury shares, representing 1.42% of the total number of issued shares (61,248,400).

An overview of the treasury share repurchases is available on the company's website at www.energyvision.be under Investor Relations / Press Releases.

About EnergyVision

EnergyVision (ENRGY, Euronext Brussels) is a fast-growing, integrated energy and mobility company, founded in 2014. The company makes the energy transition more accessible and faster by offering solar, wind and hydropower, as well as charging infrastructure, for which customers and businesses do not need to make any investment. At the same time, EnergyVision acts as an energy supplier and links the production of its own solar panels and wind turbines to the consumption of its customers, who benefit from a reduced energy bill, while the remaining electricity generated is supplied by EnergyVision to other energy customers and its own charging points. In this way, sustainable energy becomes widely available and the electricity grid remains stable and reliable. Through this integrated approach, combined with smart, flexible and datadriven management of its own installations and the network, EnergyVision achieves stable growth, technological innovation and a positive impact on the climate, always with the customer and the energy transition as the starting point.
